Specifications...

TEAK WOOD

Subject to availability. Batch to batch variation in shade may occur within commercial tolerance.

PLEASE NOTE: Due to the fact wood is a natural material variations will occur. Each product can have different natural markings, textures, grain and vein patterns, natural colour variations can occur due to the type and age of the material. This is considered normal and adds to the beauty of the products and not considered a defect.

TEAK WOOD – Most Popular wood in Indonesia. Type: Hardwood. Quality: High. Grades used: Grade A & B. Usage: Indoor and Outdoor Products

CLEAR MATT FINISH – An acrylic clear matt protective finish applied over the wood. Due to the natural differences, grains, natural colour variations, age etc of wood the final colour will vary slightly. Composition: Acrylic. Usage: Indoor & Outdoor Products

TEAK OIL FINISH – Teak oil gives a matt finish. Teak oil will produce a slightly darker and richer tone than our Clear Matt Finish. Teak oil products need regular maintenance to keep the same appearance. Composition: Mixture of Linseed oil, Tung oil, mineral oil and solvents. Usage: Indoor & Outdoor Products

RECYCLED FINISH – Paint is applied in layers and melted to create an “aged look” with a blow torch. The finish can be applied all over the product or used to accent parts. This is a random finish and no two items will look exactly the same. An acrylic clear matt protective top finish is applied.

MID BROWN, & DARK BROWN FINISHES – These finishes use translucent wood stains and an acrylic clear matt protective top finish is applied.

WHITEWASH & BLACKWASH FINISHES – These finishes are paint finishes applied by hand to the wood. No two items will look exactly the same. An acrylic clear matt protective top finish is applied.
